Edition 2: October 2016.
WELCOME TO THE GOLD COAST

As Mayor of the Gold Coast I am honoured to introduce you to our great city.

It’s a place where the ‘have-a-go’ spirit is strong and people are proud to live, work, study, start and grow a business and raise a family.

In the lead-up to the Gold Coast 2018 Commonwealth Games™ we are embracing change and dreaming big. We are taking advantage of our opportunity to shine on the world stage.

The work we’re doing now will transform the Gold Coast from a city with potential to a truly world-class global centre. I encourage you to find out more about our city.

Of course with our magnificent Broadwater, extensive canals and spectacular ocean beaches, we are ‘water based’ people where boating, sailing and water sports are a central part of our way of life.

The information we’ve provided in our Marine Capability Guide is an introduction to this thriving Gold Coast industry.

As a relatively young city, the best is yet to come. Be part of our future.

MAYOR TOM TATE
CITY OF GOLD COAST

The Gold Coast is a city coming of age. It is a place of opportunity that, over the next decade, will transform into a globally-recognised city while retaining its enviable lifestyle and stunning natural environment.

Strategically located on the edge of the Asia-Pacific rim, with access to two international airports, the Gold Coast is perfectly positioned as a destination for business, investment, study, sport, events, tourism and lifestyle.

The Gold Coast stretches along 57 kilometres of coastline and is home to over half a million people. Beyond the city’s beautiful beaches are vast, sub-tropical rainforests with breathtaking scenery.

The city enjoys a five-year average annual growth rate of 2 per cent and has access to an economic catchment of over 3.6 million people.

Welcoming close to over 13 million visitors each year, the Gold Coast is Australia’s premier tourist destination, offering a vibrant mix of shopping, accommodation, theme parks, restaurants, entertainment and an abundance of natural attractions.

With a robust economy valued at over $25 billion, and an ambitious strategy that encourages innovation and sustainable growth, the Gold Coast’s future is full of promise.

Ours is an economy of opportunity that has grown from its basis in tourism and construction to a diverse, knowledge-based economic environment.
MARINE INDUSTRY
The Gold Coast is recognised as a premier boating location.

The Gold Coast’s enviable natural environment makes it an ideal location for recreational boating. The city has over 57 kilometres of coastline, an iconic protected broadwater and 260 kilometres of navigable waterways. With 40,000 watercraft registered to utilise these waterways, the Gold Coast has one of Australia’s largest boating communities.

The Gold Coast marine industry is well-developed, specialising in the manufacture of marine craft for the Australian and international markets. The city is the headquarters for internationally recognised marine brands from manufacturers of luxury superyachts to smaller recreational aluminium boats.

A strong marine industry cluster has developed to supply materials and services to leading Gold Coast manufacturers, and has quickly gained recognition world-wide for innovation and quality workmanship.

Marine equipment and accessory manufacturers are well recognised for their capability in a diverse range of hardware, components, accessories, lighting and dock flotation systems, with many Gold Coast products found within yachts and marinas around the world.

One of the Gold Coast’s core advantages is its long history, with strengths in low-volume, high-value product manufacturing. Our leading brands and companies retain generation’s worth of knowledge and employ experienced local talent that are specific to the Gold Coast.
MARINAS AND FACILITIES
The Gold Coast has an extensive range of marinas clustered around the northern end of the city, on the shores of the iconic Broadwater and connecting river and canal systems.

Couran Cove Resort and Marina

Couran Cove Island Resort is the perfect escape for you, your family and boating friends. Cruise on in to relax, recharge and rejuvenate with an unforgettable experience tailored to suit your personal requirements.

Stay aboard your boat and enjoy their award-winning facilities, or check in as a guest in luxurious accommodation. Indulge at the waterfront restaurant, day spa … or join in for fun family activities.

Explore heritage-listed forests teeming with native Australian animals, or take a train ride to the secluded surf club and enjoy a refreshing drink whilst taking in the allure of the Pacific Ocean.

Couran Cove Resort and Marina welcome all boat owners at their competitively priced marina, which has quick and easy access from the Gold Coast Broadwater. Situated on South Stradbroke Island, Couran Cove is 25 minutes by water from Surfers Paradise.

Stay and play for the day … or even longer.

Products and services:

• 106 secure marina berths
• premium resort services and amenities
• pump-out facilities
• provisioning services
• waterfront dining and cosmopolitan cafe experiences
• fully catered conference and function rooms
• fully licensed
• VIP pass for marina guests
Gold Coast City Marina

Gold Coast City Marina (GCCM) is Australia’s very first and the Southern Hemisphere’s most comprehensive marina and shipyard facility – it is a one-stop-shop for boats. Everything you need, every facet of the marine industry, from jet-skis to super-yachts, is covered in one convenient location.

Whether you are looking to berth, store, haul-out, maintain, refit, build or buy a boat of almost any size, this facility has it all.

The most experienced and highly skilled operators all work together at GCCM, there are over 60 on-site trades, employing over 500 marine related contractors. For those wishing to take away the stress of deadlines, budgets and quality control, experienced and internationally accredited project managers are also available.

The team at GCCM have been together now for over 15 years and in that time they’ve lifted, maintained, repaired, refitted and built well in excess of 50,000 vessels. They have become an international benchmark in the marine industry and Australia’s most awarded marina and shipyard.

Products and services:
- marina and shipyard – 250t capacity
- superyacht facilities
- boat sales
- electrical and electronics
- fabrication and welding
- boat building and shipwright
- mechanical and engineering
- chandlery and marine products
- undercover boat storage

Awards:
- Superyacht Business of the Year Service

Accreditations:
- Clean Marina (Level 3)
Hope Harbour Marina

Hope Harbour Marina is the Gold Coast’s hidden gem.

Situated conveniently at the northern end of the Broadwater 2nm from the GC Seaway, the pristine and tranquil waters of Hope Harbour Marina are a safe and secure all-weather haven for you and your boat and is a newly refurbished lifestyle marina destination. Hope Harbour Marina is surprisingly close to everything the Gold Coast has to offer including the beautiful golden beaches of Surfers Paradise, Theme Parks, Coolangatta and Brisbane Airports less than an hour away.

Hope Harbour Marina has 279 premium wet berths from 9–45meters. The secure harbour offers generous fairways accommodating deep drafted vessels dredged to 3m LAT.

Hope Harbour Marina also offers 24/7 secure parking for your boat and trailer, caravan or motorhome. Boat and trailer storage includes use of the private ramp and jetty.

Shipyard services are available at Hope Harbour as well as locally at Runaway Bay Marina.

Products and services:

- 24/7 secure marina berths - 15 and 32 amp power and potable water
- trailer boat and jetski storage with private ramp and jetty
- secure caravan and motorhome storage with 24/7 access
- Ramada Resort - bar, restaraunt and accommodation (VIP discount card)
- fuel wharf, broker, cafe and general stores – discount fuel for marina customers
- swimming pool, tennis court and bbq area
- shipyard, mobile repairs and maintenance
- free day visitor berth
- dockside amenities and laundry

Accreditations:

- Marina Industries Association
- Boating Industries Association
Hope Island Marina

Situated in the protected waterways off the Coomera River, the on-site facilities at Hope Island Marina are unparalleled to any other marina, creating the perfect destination for before and after a day out on the water. Take a leisurely stroll around Hope Island Marina Village – home to some of the area’s finest boutique shops, cafes, restaurants and bars.

Located in the heart of the Hope Island Resort, and a few minutes’ walk from the world class Links Hope Island Golf Club, Hope Island Marina is an ideal place to moor your boat, short or long term with berth sizes from 12 to 30 meters, mono and multihull. Hope Island Marina are also one of the few remaining Australian marinas that offer freehold berths, meaning you have complete control over your asset and can take advantage of capital growth, rental income and resale rights.

World class haul-out facilities including a fuel wharf are located less than 1 nautical mile from Hope Island Marina.

Products and services:

- berth sales – freehold
- berth rentals – short and long term
Horizon Shores Marina

Horizon Shores Marina is conveniently located between Brisbane and the Gold Coast, has a huge variety of service offerings.

Products and services:
- 500 marina berths
- 350 dry stack storage
- 200 trailer boat storage
- full boat repair, service and refit solutions onsite
- jetski and tinnie storage options available
- fully enclosed boat refit and repair sheds
- shipwrights, antifoul, trimmers, boat builders and repair services
- 70 tonne Travelift Haulout
- on water fuel
- chandlery and brokerage
- public boat ramp
- café and boat sales

Accreditations:
- Boating Industry Association
Runaway Bay Marina

Runaway Bay Marina is a premier location on the banks of the Gold Coast’s stunning Broadwater from which to explore South East Queensland’s most popular marine destinations. Within a few minutes of the Gold Coast Seaway and South Stradbroke Island, it offers a great sheltered marina on this extensive pristine waterway that stretches all the way from Surfers Paradise to Moreton Bay.

Runaway Bay Marina offers 195 berths in a fully protected basin for vessels up to 30 meters. Ashore offers a further 260 berths for boats of up to 10 meters in the dry-storage facility which operates seven days a week.

Most boating needs can be catered for onsite; Marina Fuels supplies diesel and ULP, gas, ice, bait and tackle. On site tenants offer antifouling, detailing, shipwright, mechanical, and electrical services, as well as boat covers. If required, the 35 tonne travel lift can lift your boat onto the hardstand to be worked on by yourself, tenants or licensed service providers.

Also at Runaway Bay Marina you’ll find several boat brokers, three restaurants, a cafe and bar, takeaway, a laundromat, even a hairdresser, personal trainer and beauty salon. There is also a major shopping centre within a 10 minute walk.

Products and services:

• marina berths
• dry storage
• shipyard services
• all repairs and maintenance
• fuel wharf and pump out

Accreditations:

• Clean Marina
Sanctuary Cove Marina

Located alongside the picturesque surrounds of Sanctuary Cove, the 226 berth marina enables direct access to the Pacific Ocean via the waterways of the Gold Coast Broadwater and the Coomera River.

Catering for a wide variety of vessels from 25ft (8m) up to 120ft (36m), casual and permanent berth options are available in wide double pens with fresh water plus single or three-phase power options available.

Awarded five gold anchors, Sanctuary Cove Marina provides personal berthing assistance, premier facilities, fuel, 24 hour security patrols and holds a level 3 Clean Marina accreditation.

**Products and services:**
- free day visitor mooring
- dockmaster assistance 7 days a week
- fuel
- amenities with full shower and toilet facilities
- 24 hour security patrols
- waterfront cafes and dining
- VIP Pass and Village Rewards Card

**Awards:**
- Five Gold Anchors - category of residential harbour-estate marinas

**Accreditations:**
- Level 3 Clean Marina
Southport Yacht Club Inc.

Established in 1946, Southport Yacht Club’s purpose is to provide excellent facilities for those persons interested in boating and its associated activities, or simply wish to unwind from the daily grind in a unique, relaxed atmosphere.

With three facilities at Main Beach, Hollywell and Dux Anchorage on South Stradbroke Island, Southport Yacht Club is known worldwide for its exceptional sailing and power boat activities producing many world and Olympic champions.

Facilities include a learn to sail academy, 300 berth award winning marina and hardstand, waterfront dining, function centre, world first Waterscape pontoon bar, gymnasium and much more.

Products and services:
• 300 berth marina
• 24 hour fuel
• hardstand and travel lift
• waterfront dining
• sailing academy
• functions/events centre
• three clubhouses
• yacht racing

Awards:
• Best Marina Australia 2007
• Best Marina Restaurant 2013
• Clubs Queensland – Best Dining 2012/13
• Clubs Queensland – Innovation 2015/16
• Clubs Queensland – Young Manager 2015/16

Accreditations:
• 4.5 Gold Anchor Marina
• Fish Friendly
• Clean Marina
The Boat Works

The Boat Works is located on 22.7 acres of Coomera riverfront delivering a superior marine service to boat owners and commercial operators on the Gold Coast. First-grade boat yard and slipping facilities cater for a broad range of boats from your everyday runabouts to large multihull catamarans and luxury yachts. The facility also provide services for unique vessels including game boats and houseboats, including boat lifting, through to hardstand, sheds and storage options.

With genuinely passionate staff and a diverse offering of marine professionals in one comprehensive space, The Boat Works is fast becoming one of the homes for the ongoing maintenance and refit needs of Gold Coast boaties.

They even have an extensive secure area away from the work bays for long term hardstand storage for the off season. It’s a boatyard with a difference!

A yard that simply works, is clean, has a comprehensive range of knowledgeable crew ready to assist.

Location by Sea: Beacon to Beacon Ref. Map 122 – 117, 27° 52’ 14.68” S, 153° 20’ 8.71” E.

The travel lift and ramp access is between marina arms C and D.

Products and services:

- work berths servicing up to 30 metre vessels
- 70 tonne marine travel lift
- 100 tonne marine travel lift
- hydraulic sealift
- hardstand – clean and controlled environment
- refit sheds up to 15 metre high (screened and lockable)

AirBerth Boat Lifts

AirBerth produces and markets its patented boat lifting system.

Made almost entirely out of HDPE (High Density Polyethylene) AirBerth has grown to become the proven choice for on water boat storage for recreational boat users and commercial and maritime users such as marine rescue groups and coast guards.

With a range of 10 different models AirBerth caters for monohull and catamaran vessels up to 15 metric tonnes.

On water boat storage gives AirBerth a range of benefits including: rapid vessel launch and retrieval resulting in more mission hours for the vessel, reduced maintenance schedule, optimal vessel performance by eliminating the need for anti-fouling paint and up to 5 to 10 per cent better fuel consumption than similar antifouled vessels.

Product and services:

- M-series AirBerth boat lift for monohull planing vessels up to 15 metric tonnes
- C-series AirBerth boat lift for catamaran vessels up to 15 metric tonnes
- Custom designed AirBerth boat lift systems for specialised vessels

Awards:

- 2015 Winner: AIMEX (Australian International Marine Exporters Group) Recognition Award
- 2015 Winner: The Maritime Australia Limited – Civil Industry National Innovation Award

Accreditations:

- AS/NZS 4251-1 for electromagnetic emissions
- European Standard – EN 610000.6.3 for electromagnetic emissions
- European Standard – EN 610000.6.1, 2005 for electromagnetic immunity
Aqualuma

Aqualuma is the world’s leader in marine underwater lighting. Based in Helensvale, the company designs and manufactures a range of LED underwater lights for the pleasure and luxury marine sector along with Industrial and Commercial LED lighting solutions for factories, warehouses and sporting applications. Established by the Amor brothers on the Gold Coast in 2004, Aqualuma now supplies products to more than 50 countries.

Building on rapid growth across the marine and commercial sectors, a state of the art manufacturing facility was built in 2014 to meet growing demand. This new facility allows Aqualuma to more effectively service the growing demand of orders from around the globe.

Manufacturing locally on the Gold Coast and with over 90 per cent of components sourced from Australian companies, Aqualuma stands proudly as an Australian designed and manufactured brand.

Aqualuma supplies many of the world’s luxury Sailing and Motor Yacht manufacturers along with an impressive selection of Australian ASX Listed and SME companies for their warehouse and factory lighting solutions.

Investing heavily in R&D and innovation, Aqualuma holds a range of patents on its diverse range across the globe, putting it in number one position for energy efficiency, sustainability exciting design. As a result and to further reinforce its place in the market, Aqualuma has won an impressive array of awards putting it amongst the best companies that Australia has produced in the past two decades.

ATL Composites Pty Ltd

ATL Composites holds a strong and successful position as an epoxy formulator, and is a leading supplier of advanced composite materials and engineering, for the construction of high performance, lightweight structures for the marine, automotive, architectural, civil and industrial tooling markets.

ATL Composites has enjoyed steady expansion in Australia for over 35 years, and has based its business on interactive customer service and extensive research and development, to develop easily processed, cost effective products to optimise performance and reduced production time for their clients.

ATL Composites is committed to providing quality products and services to all current and future customers. Every member of the business shares the responsibility for quality management and continual improvement to ensure customer satisfaction.

Products and services:
- epoxy resins
- structural core materials
- reinforcements
- vacuum bagging and infusion consumables
- composite panels
- plug and pattern surfacing compounds
- custom formulation
- structural engineering
- CNC Routing Services

Accreditations:
- ISO 9001 Quality Management System
- DNV-GL Shop Approval #KBZ1095HH
Aurora Marine Design

Aurora Marine Design (AMD) is a modern ship design and consultancy organisation focused on delivering a comprehensive personalised service. At AMD they pride themselves on providing real solutions for our clients and meeting their specific requirements.

AMD has a highly qualified team with extensive knowledge in all facets of vessel design and has built a reputation as a market leader in vessel design and marine consultancy.

Their diverse vessel portfolio includes Motoryachts, Sportsfishers, Passenger ferries, Landing Craft, Commercial Fishing vessels, Tugs, Barges and Work boats. AMD also provides consultancy and technical services to the marine industry including marine construction, mining, transportation and logistics as well as to the wider marine industry.

Products and services:
- new build marine design
- vessel upgrades and modifications
- marine consultancy
- marine engineering design
- transports/heavy lift/loadouts
- concept design and validation
- plan and document approvals (AMSA)

Accreditations:
- AMSA Accreditation
Australian Davits and Cranes

Australian Davits and Cranes (ADC) has been committed to manufacturing products of excellence for discerning customers since 2002.

ADC products are principally designed for marine use, however they are so robust and hard wearing they can be used in any application that requires strength, durability and the ability to withstand the effects of the elements. The customer’s special requirements are catered for with any number of variables on the basic design and attention is paid to every order to ensure specific needs are met.

The marine davits, cranes and the innovative rotary duckboard lifter are manufactured to Australian standard for tenders or to NSCV for commercial vessels at the companies factory in Queensland’s Gold Coast. Australian Davits and Cranes will not be beaten on price or quality.

Products and services:
- marine davits and cranes
- rotary hydraulic duckboard lifters
- stainless steel fabrication

Accreditations:
- Class Standards

Australian Fuel Cells Pty Ltd

Australian Fuel Cells (AFC) is an Australian-owned SME based in Molendinar, on the Gold Coast.

The company specialises in fuel tank bladders, helicopter safety floatation systems, repair and supply. AFC also distributes Aero Tec Laboratories (ATL) products. Over the last decade, AFC has developed close working relationships and repair station status with all the major manufacturers such as Amfuel, Meggitt (formally EFC), FPT, Apical and Dart Aerospace, which gives the company timely access to technical data and repair materials and parts.

AFC offers a range of ATL, above-deck extended range fuel bladders. These range from 100 litre to 2000 litre and can be simply rolled-up and packed away to maximise range and floor space.

ATL’s economical “Petro-Flex”® and innovative “Fue Locker”® range-extension tanks are ideal solutions for longer voyages requiring high fuel consumption. They can also be used to stock-up on lower cost or more reliable, higher quality fuel when at port. AFC also offer below-deck fuel cells that are custom designed and built to suit. All fuel bladders are made from ATL’s durable military-specification rubberised fabric, renowned for its superior tensile strength and puncture resistance. All ATL bladders can be tested and repaired in AFC’s facilities in Molendinar when needed.

Products and services:
- above-deck extended range fuel bladders
- ATL Petro-Flex® Economical range-extension tanks
- ATL Fue Locker® Innovative range-extension tanks
- ATL Fluorocell™ Fuel Bladder – specialised below-deck fuel cells
- ATL Supercell™ Fuel Bladder – below deck fuel cells

- AS9110
- AS2337.1 and AS2337.2
- CASA PART 145
- Australian Defence Force AMO
- FPT/MAN 730 and FPT/MAN/1003
Australasian Marine Associates

Australasian Marine Associates provides specialist marine environmental engineering consulting services for aiding the inception, execution and delivery of marine infrastructure and dredging projects.

Complimentary services include facilitating permitting and licence conditions at a State and Federal level, as well as project management and engineering procurement and contract management services. Coupled with advanced marine environmental, coastal processes and bathymetric mapping capabilities, they supply a fully integrated service for projects that interface with marine and coastal environments.

The team consists of expertise in reef ecology, seagrass and estuarine ecology, marine megafauna surveys, water quality and sediment chemistry, coastal and maritime engineering, oceanography and ecotoxicology.

Products and services:

- marine construction and dredging
- marine environmental studies
- water, metocean and sediment investigations
- State and Federal permits
Australian Marine Wholesale

Located at The Boat Works, Coomera, right in the heart of Australia’s boating capital, Australian Marine Wholesale offer an experienced team of professionals with many years of boating knowledge. From electronics technicians, licensed AC electricians and desalination engineers, they have you covered.

Australian distributor for BlueWater and Pacific Light Water Makers, Lumitec LED lighting, Iris camera systems and Master Marine Pro engine diagnostic tools.

Major supplier to trade and retail for Raymarine, Garmin, Simrad, Furuno, Fusion, Clarion, Victron, Aqualuma, Hella, KVH, Navionics, Intervolt, Shakespeare, SeaView and many other leading marine brands.

Products and services:
- desalination/water makers
- electronic equipment sales, service and installation
- electrical installations
- under water lights
- satellite communications
- navigation equipment
- power management
- entertainment systems
- LED lighting

Awards:
- 2015 international Distributor of the Year
- 2015 Raymarine Service Dealer of the Year

Accreditations:
- Factory trained and certified technicians
- Manufacture certified technicians
- Licensed technicians
Australian Volunteer Coast Guard Southport

The Australian Volunteer Coast Guard is an organisation comprised entirely of volunteers. Formed in 1961, it’s aim is to promote safety in the operation of small craft.

It guards the coast in the most effective way by education, examination and finally, search and rescue.

Products and services:

- vessel assistance
- vessel tracking
- radio monitoring
- marine radio education (LROCP, AWQ)
- boat license/education
BlackPond Marine Consultants

BlackPond Marine Consultants have been established on the Gold Coast since 1995 (previously Blackline Shipping), Joe Akacich is an AMSA Accredited Marine Surveyor with broad experience in all areas of the marine industry - this experience gained over the 40 years since he joined the Royal Australian Navy in 1976.

BlackPond can facilitate any tasks required on your vessel, be it a commercial or recreational craft, 10 to 150 metres. Joe works with a team of sub-contractors Australia wide who are all highly regarded within the marine industry.

Products and services:
- AMSA accredited marine surveying
- refit and repair project management
- pre purchase/pre charter reports
- expert witness services
- new build management
- salvage consultancy
- insurance surveys
- accident investigation
- passage planning

Accreditations:
- AMSA Surveyor 126495
- Australian Institute Marine Surveyors Member
- BIA Member
Bluefin Boats

Established in 1999, Bluefin Boats are recognised as one of the leading manufacturers of Aluminium Pleasure Craft.

With a range in excess of 140 models including dinghies, punts, runabouts, bow riders, cabin boats and sports fishing boats.

To meet the demands of their growing business, Bluefin relocated to a larger facility at Molendinar in 2006. Totalling 4500 square metres and incorporating a modern production line approach, Bluefin manufactures boats that are handmade and built to customer specification.

By utilising the latest design techniques and quality in-house equipment, such as CNC Routers, Press Brakes, Plasma Cutters and Spray Booths, Bluefin are able to maintain a central manufacturing facility.

Every member the Bluefin team embraces the ‘built with pride’ motto which is affixed to each boat manufactured.

Products and services:

- dinghies
- punts
- runabouts
- bow riders
- cabin boats
- sport fishing boats
- boat trailers
Boat Gold Coast Magazine

Boat Gold Coast magazine is a quarterly publication focused around boating on the Gold Coast. Boat Gold Coast is for anyone interested in local boating news. The magazine aims to promote boating culture to the wider community by showcasing boats, equipment, locations and events.

The contributing writers and photographers comprise of a creative and dedicated team in marine community media, delivering noteworthy boat information on products and services, as well as providing marketing, copywriting and design services.

With an annual readership of approximately 120,000, Boat Gold Coast offers advertisers an advanced method of brand development and product marketing of boats and related marine equipment and services. The printed format physically puts product information in the hands of real buyers, allowing advertisers to sell products directly to the local buyers. Boat Gold Coast magazine is also available as a flipbook online, while stories and advertisers are profiled weekly through a direct email newsletter to subscribers.

Products and services:

- print media advertising
- content creation
- copywriting and design
- photography services
- white papers
- Enewsletters
- brand development
Complete Antifoul Systems

Specialising in antifoul and prop speed, Complete Antifoul Systems’ aim is to provide the best quality workmanship and competitive prices.

Catering to all marine vessel types, located at The Boat Works, Coomera.

Products and services:

- antifouling – 12 month warranty
- prop speed
- new antifouls
- sandblasting
- osmosis repairs
- boat detailing
- paint repairs
- multihull specialists
Davco

Davco is a PTY LTD company established in 1989, specialising in the manufacture of hydraulic platforms and cranes.

Davco supply both local and international boat manufactures with their cranes and platforms fitted as standard to leading Australian boat manufacturers and shipped worldwide.

Their in house design and use of the latest fabrication and welding techniques including CNC machinery has provided them with an excellent global reputation as they continue to export their products to many countries throughout the Pacific region.

Products and services:

- Hydraulic Platforms
- Cranes
- Davits
- Cradles
Everingham Power Boats Pty Ltd

Everingham Power Boats Pty Ltd is an aluminium boat building company based on the Gold Coast specialising in the construction of commercial vessels and has the necessary skills to produce vessels of high standards to meet your requirements. Also custom designed and built vessels to meet your specifications on time and budget.

Everingham Power Boats are very proud of their accumulation of qualified and knowledgeable personnel with combing over 70 years’ experience in the boating industry. Their Project Manager, Mr. John Hardie has been actively involved with construction of approximately 100 vessels up to 112 metres in length, a large percentage of these vessels have been built to State, Commonwealth or International Class Certification. Also their welders are certified to AS/NZS 1655:2004 Standards.

Previous new builds to date are crew transfer vessels – diesel or outboard powered, line handling vessels, navigation aid vessels, environmental education vessels and small barges.

Products and services:

- aluminum boat building
- new builds/design
- built to survey requirements
- refits, repairs and repowers
- fitouts
- engineering
- antifouling
- prop speed

Accreditations:

- Gold Coast Waterways - Currigee
- Moreton Bay - Inspiration

FAB Dock

FAB Dock Pty Ltd was established at the start of 2011 in response to a worldwide need for an economically viable dry docking system for boats that live in the water. After six years of intensive research and development, the team at FAB Dock arrived at their goal. Since then, it has become the company’s mission to get as many boats in the world into FAB Docks in order to keep them clean, rather than rely on the archaic method of applying toxic and poisonous antifoul to the boats hull and running gear.

The volume of this environmental disaster is unprecedented. With nearly twenty million registered boats in the US and Australasia, six million boats living in the waters around Europe and a rapidly expanding marine market in Asia, something needed to be done urgently. If each one of these boats applies twenty kilos of poisonous antifoul to its hull each year, hundreds of thousands of tonnes of toxic poison is entering our oceans.

With nearly 400 boats already living in FAB Docks all around Australia they are already doing their part in eliminating this environmental scourge. FAB Dock also aim to do a lot more to protect the environment in the future.

Products and services:

- the best dry docking system ever invented
- portable, 12 volt and inconspicuous
- its design and construction assists in berthing a boat, singlehanded - first time, every time.
- it will pay for itself in a few years with the maintenance savings gained.
Fairspray Marine Finishing

Boat spray painting, fairing, repairs, refurbishment, project management, antifouls and detail. Over 30 years experience in boat painting and repairs providing quality solutions to suit you.

Located at The Boat Works, Coomera.

Products and services:

- boat painting
- paint repairs
- fairing
- project management
- refurbishments
- antifouls
- detailing
Gateway Hydraulics Pty Ltd

Gateway Hydraulics is an Australian owned fluid power engineering, sales and service company specialising in the design, manufacture, installation & support of hydraulic systems and components for; marine, industrial, mining, construction and agriculture applications.

Gateway Hydraulics is the premier distributor in Australia for Kobelt Manufacturing of Canada. Kobelt designs and manufactures steering and control systems that provide the safest, most trusted solutions for guiding & controlling movement on marine vessels. The Kobelt range includes; propulsion control and steering systems, Keypower thrusters, stabilizers and braking systems, and the Accu-Steer range of hydraulic steering actuators, providing end-to-end marine control systems from a single source.

Gateway Hydraulics product range for marine applications includes; Gateway ‘Hyd-Lec’ range of hydraulic driven power generators/alternators, Wilkes & McLean inline hydraulic noise suppressors, Pitt Industries vee belt and direct drive electromagnetic clutches, Logan Clutch air and hydraulic actuated clutches, Rotzler and Braden-Gearmatic winches.

**Products and services:**
- Kobelt electo-hydraulic steering systems
- Kobelt manual & electronic engine controls
- Accu-Steer hydraulic steering actuators
- Keypower hydraulic bow & stern thrusters
- Keypower digital roll fin stabilisers
- Gateway ‘Hyd-Lec’ standby generators
- Wilkes & McLean inline noise suppressors
- Pitts Industries electro-magnetic clutches
- Rotzler planetary drive hydraulic winches

**Accreditations:**
- ABS, CE, DNV-GL, LR, RINA approvals
- CE, DNV-GL, LR approvals
GCMarine

GCMarine offers a fresh new approach to the marine industry, run by a highly motivated team of marine industry professionals with over 25 years experience based on the Gold Coast, Queensland, Australia.

GCMarine has the capability and experience to construct floating marine structures and deliver high quality aluminium products for marine berthing applications.

GCMarine has carried out projects all over Australia and also overseas in both the commercial and residential sectors.

GCMarine offers a variety of services to the marine industry, not limited to, concept and planning, design engineering and project management to specific project requirements.

In 2015 GCMarine was appointed the Australian dealer of Turkey based exporter, Dock Marine Systems, which has allowed GCMarine direct access to plastic rotationally moulded marine and lifestyle products and accessories.

Products and services:

• Residential/Commercial Pontoons
  - spun concrete piles
  - steel piles with black sleeves
  - insitu piles
  - struts
  - cable
  - dry berth

• Fixed Deck Structures
  - custom built timber jetties

• Floating Office Suites
  - fully customised – colour/branding, external finishes, choice of structure, floor size, deck material.
Geoff Lovett International

Love the life you live, Geoff Lovett International.

Experience, expertise and credentials are the vital components of buying, selling or chartering luxury vessels. And when it comes to each of these, the world truly is our oyster.

Whether it’s your first foray into boating or the next in a long line of yachts, bought for business, on a whim, the reward for your labour or as a lifestyle change, your ideal boat is our sole focus.

50 years in the business, with loyal clientele around the world, the Geoff Lovett International name is synonymous with integrity, quality, personalised and professional service.

Geoff Lovett International pride themselves on going that extra mile and making astute decisions based on a lifetime of experience. They have clients who have been with them through five boat sales over the years, and a 75 per cent repeat rate for their clientele, so they must have the right formula.

Products and services:

- sales
- charter
- insurance
GLO-X

GLO-X is an Australian based and owned company located on the Gold Coast, specialising in powerless illuminating products.

GLO-X has world leading patented technology and the ability to supply, innovate and manufacture within virtually any range of materials such as plastics, paint, lacquer and resin.

The company offers a wide range of products and are a supplier of failsafe emergency lighting systems.

With in-house and joint local engineering development ability, the company can quickly develop new applications for your existing product lines and accelerate the time to market of all new powerless illuminated products with their 3D design, sample prototyping and joint manufacturing capabilities.

One of the many benefits of using GLO-X product is its ability to be utilised in low-light, inaccessible areas for electricity and other important services. All GLO-X products are manufactured in Australia meeting all relevant standards.

Products and services:

• inventive design and development
• locally manufactured products
• quality assured and reliability

Accreditations:

• ISO90001

Gold Coast Waterways Authority

Driven by Gold Coast priorities, the Gold Coast Waterways Authority are responsible for all waterways south of the Logan River to the New South Wales border.

Providing access to Gold Coast waterways:

• keeping Gold Coast Seaway open
• keeping channels open at appropriate depths
• navigation aids
• marina’s, pontoons, jetties and boat ramps
• educating about the uses, values and importance of protecting our waterways
• abandoned vessels and other property
• events at Doug Jennings Park
• public boat moorings

Managing Gold Coast waterways

• anchoring and mooring locations
• speed limits and signs
• driver behavior on waterways for speed and wash
• recreational and commercial uses of waterways
• impacts on the environment
• dredged sand and sediment reuse or disposal
• balancing safety of users in accessing our waterways
• waterway destinations
• promoting enjoying our waterways
• research on waterways
• Sand Bypass System
• pollution incidents
Gold Coast Marine Repairs

Providing services for private and commercial boats, new and used. Fibreglass repair services and resprays, from touch ups to full resprays, small boats to superyachts. Our focus is on boating safety.

Qualified professional experience and highly skilled marine craftsmen, provide the highest quality custom modifications for your vessel.

No job is too big or too small. Gold Coast Marine Repairs provide services for private and commercial boats, new and used, boat dealers/brokers, insurers as well as contracts to shipways and shipwrights.

Products and services:

- fibreglass repairs
- spraypainting
- antifoul
- gel coat repairs
- insurance repairs
- luxury boat repairs
- general boat maintenance
- superyacht repairs
- jet ski body repairs
- boat detailing and polishing
Gold Coast Ships (Australia)

Specialists in aluminium vessel design, construction and kit sets. Water taxis, ferries, landing craft and patrol vessels.

Products and services:

- pre cut kit sets
- designs
- construction
- industry consultation
Inter-Marine Pty Ltd

Inter-Marine Pty Ltd is a well-established, privately owned business specialising in the cruise industry and other heavy marine vessels. Inter-Marine is Australia’s most prominent heavy marine technical service provider covering a variety of services and support provision to key commercial, merchant and cruise marine clients throughout the world.

Inter-Marine specialises in servicing and supporting shipping in the South Pacific region and has the capability of extending those services worldwide. This includes provision of services to the Australian Naval fleet and Australian DMS fleet vessels.

Inter-Marine are a preferred and referred contractor to the Australian Department of Naval Defence, a vast variety of cruise line companies and charter boat companies. They specialise in HVAC and refrigeration and have successfully retrofitted vessels to new generation ozone friendly refrigerants.

Inter-Marine also has the capability of delivering on time various refurbishments during vessel re-fitting dry docks, and provides ‘Riding Crews’ throughout the world; conducting service, maintenance and specialist repairs. They are a competitive chandler for all departments on-board and have a procurement purchasing team available.

Inter-Marine are the certified South Pacific Region agent for Total Marine Services Inc. in Florida, USA. Through this partnership Inter-Marine provides service and certification for bilge over board discharge OCM meter monitoring, oil separation systems. White box and control equipment to meet stringent international EPA laws.

Products and services:

- HVAC-R service
- technical support in all departments
- procurement chandler
- engineering projects and emergency engineering

Lankhorst Euronete

Lankhorst Euronete Australia (LEA) is part of the Royal Lankhorst Euronete Group, parent group Wireco World Group, well known for maritime ropes and high quality commercial fishing products.

With over 80 years’ experience, Wireco World Group is the market, manufacturing and technical leader in wire and synthetic rope manufacturing assemblies, high carbon wire, fibres, yarns, netting and electomechanical cable.

Wireco World Group provides a consultative approach offering customers a single, reliable source for solutions that fit specific application and budget needs.

LEA has an advanced manufacturing facility to service the maritime, offshore and oil and gas industries. It offers full service in large stocks of synthetic ropes, splicing services and wire handling abilities through to large diameter with socketing and pressing of wires ready for the field.

As a supplier of steel wire ropes, Lankhorst Ropes has direct access to WireCo’s largest steel wire manufacturing resource and leading wire rope brands.

Most recently LEA has implemented a Rope Recycling Program which is a first for Australia where retired ropes, previously treated as a chemical waste, are now sent to one of our manufacturing plants in Europe for recycling into park furniture, decking and shelving.

Products and services:

- synthetic mooring and towing ropes – 2mm to 104mm
- wire rope – 6mm to 52mm
- Crosby heavy lifting equipment – grade 100
- offshore mooring ropes up to 104mm
- unique ‘big tow’ heavy tow strop up to 1100t

Awards:

- Subsea Innovation Awards – 2013, 2014
- SeaTrade Award – 2015

Accreditations:

- QPL Qualified
- API Spec 9A certified
- ISO9001
- AS-9100 Quality Systems
Leigh-Smith Yachts

The Leigh-Smith family has been selling boats in Australia for over five decades, brothers Dean and Ryan Leigh-Smith are located at Sanctuary Cove, Queensland and represent new boat brands: Alaska Motor Yachts, Fairline Yachts UK, Toy Marine Italy, Hampton & Endurance Yachts as well as a premier brokerage facility for vessels from $50,000 to $30m+.

Having been part owners who ran one of the largest shipyards in the southern hemisphere the Leigh-Smith Yachts team are a market leader in vessel sales, project management and consultancy. Good old fashioned service, a wealth of experience, excellent product knowledge combined with an in depth drive for evolving their products ensures the Leigh-Smith Yachts team are your best boating choice for now and into the future.

Products and services:

- Alaska Motor Yachts
- Fairline Yachts UK
- Toy Marine Italy
- Hampton and Endurance Yachts
- Premier Yacht Brokerage
**Lightwave Yachts**

A blue water pedigree with sleek appeal, Lightwave Catamarans are renowned for their impressive sailing performance and long range cruising capabilities.

Prestigiously customised for each client, Lightwave Catamarans have been cruising to destinations all over the World since the company was founded in 1996, by Builder and Managing Director, Roger Overell.

Their latest project, a customised Lightwave 45 with Galley Up, has been purpose built for owners who are set to take on a World Circumnavigation. This will be the second Lightwave to circumnavigate the globe with Lightwave 45 INNFORAPENNY II completing the voyage in 2010. This Australian made production catamaran, gained International attention in its World voyage, participating in 2 International Blue Water Rallies, including the largest sailing event in the World, the Arc Atlantic Rally, in which the Lightwave 45 victoriously won the Multihull Division!

The Lightwave Yachts range of Ultimate Cruising Catamarans includes the Lightwave 38’ & 45’ Sailing Catamarans, the fuel efficient Lightwave 38’ & 46’ Powercats, and the Lightwave 47’ Motor Sailer. The Lightwave 58 has recently been announced, a high performance cruising catamaran, which will be the flagship of the range of catamarans produced at this specialised yard.

The Lightwave Group also specialise in Composite Manufacturing Projects; and offer After Sales Multihull Service works at their Waterfront facility on the Gold Coast in Australia.

**Products and services:**

- custom and semi custom catamaran yacht builds
- fibreglass mould and plug making
- composite fibreglass manufacturing
- fibreglass assembly plant
- refits including repaints and interior redesign
- servicing on all brands of multihulls
- catamaran yacht brokerage

Marine Air Flow International

Marine Air Flow International (MAFI) is an Australian owned private company which manufactures engine room ventilation products primarily for the marine industry. MAFI products are Australian made and are packaged and shipped worldwide from their factory on the Gold Coast in Queensland, Australia.

Marine Air Flow International was established in 2005 with the primary purpose of engineering a product to enable better engine room operating conditions. The added advantage of promoting a safer working environment for all those in the marine industry and the ability to support greater environmental operational practices is also of high importance.

Marine Air Flow International is a business that knows firsthand the problems experienced in an engine room environment and how best to combat the issue of salt and water induction into this operating space.

Engine room equipment is a major investment in any marine environment so protecting this equipment is of great concern. By using MAFI equipment you can lessen potentially dangerous situations that can arise from the failure of any of these essential components.

Today, Marine Air Flow International manufacture engine room air intake grilles, fans and fire flaps to suit most private and commercial applications.

Our easy to install systems assist with such challenges as:

- engine room overheating
- salt spray and mist
- dust intake
- equipment corrosion
- smoky exhausts
- bad fuel economy.

Products and services:

- air intake separator grilles (mist eliminators) which prevent salt mist and spray from entering your engine room
- stainless steel and alloy air dampers (fire flaps)
- AC and DC marine ventilation fans and auto speed controllers
- full project consultation, appraisal and obligation free quotes.
Marine Control Systems

Marine Control Systems (MCS) strives to deliver hydraulic and electronic/hydraulic steering solutions for a wide variety of marine vessels, with an emphasis on efficiency, durability and reliability across all products and services.

With the Australian Made MARCON steering cylinder range at the heart of Marine Control Systems there are a number of standard hydraulic steering options available, with the ability to design and manufacture customised solutions when needed. MCS also delivers an extensive range of electronic and mechanical engine control solutions and mechanical control cables to marine, industrial and automotive sectors.

MCS has more than 27 years of experience in the field of marine steering and controls therefore enabling MCS to bring forward a wealth of experience and knowledge throughout a wide variety of steering and control applications.

Products and services:
- design, manufacture, supply and install MARCON Hydraulic Steering systems for marine vessels
- supply and install of mechanical and electronic gear and throttle systems for marine vessels
- repair, supply and design of automotive, industrial and marine mechanical control cables
- service workshop and showroom with a mobile service also available for marine installations
- major products include MARCON Cylinders, Seastar Solutions, Cablecraft Australia cables, HiLex Marine Cables, RACOR Fuel Filters and Bennett Trim Tabs

Accreditations:
- CE0614
- ISO10592
Marine Engineering Consultants/MEC Yachts

Marine Engineering Consultants (MEC) was formed in 2008 and is continually moving forward to ensure they are ahead of the fleet when it comes to the construction of aluminium luxury and commercial vessels.

Whether constructing a catamaran or mono hull, MEC Yachts accommodate client’s needs by offering lifestyle choices second to none.

The diverse team boast immeasurable years of experience within the marine industry, constructing all MEC Yachts from start to finish within their premises on the Gold Coast.

Boat builds to date range from 12 metre luxury power catamarans to 34 metre commercial fast ferry catamarans and 12 metre high speed patrol barges.

Products and services:
- aluminium boat building
- complete engineering services
- electrical
- fitout
- refits and repairs
- project management

Awards:
- 2016 Commercial Manufacturing Award
Maritimo Offshore

Maritimo is Australia’s world renowned builder of bespoke luxury motor yachts perfectly blending superior engineering and performance with luxurious finishes and smart interior design.

Hand built by the finest craftsman they offer the serious boat enthusiast a wide range of impressive motor yachts including the M-Series Flybridge, the S-Series Sedan Cruisers, and the new E-Series Sports Cabriolets.

Dedicated to creating distinctive high quality motor yachts the combination of their race honed performance pedigree with Australia’s easy living approach offers each owner timeless elegance and unparalleled abilities in the water.

Products and services:

- boat manufacturing
Maritimo M65 luxury motoryacht
M-Tech Marine Technologies

M-Tech Marine Technologies specialises in the manufacture and supply of marina utility pedestals and associated equipment.

Serving the industry for over 30 years M-Tech has been prominent in the innovations and technical enhancements of marine service equipment. In this time, M-Tech have gained a wealth of knowledge in providing the marina operator and developer with complete solutions and have emerged as Australia’s leader in the Marine Utility Pedestal Industry.

M-Tech maintains fully staffed research and development facilities on the Gold Coast.

Using the latest computer aided machinery, their dedicated trained engineers provide technical, design information and support to the Coomera based factory.

M-Tech’s products are also manufactured and marketed through licensees in the UK (Europe), New Zealand, Korea, Japan, Malaysia and China, offering their products to the world marketplace in over 28 countries.

M-tech offers complete project service, design, supply and manufacture of service pedestals, emergency equipment, sanitation pump-out systems and associated equipment. To accompany this range of products M-Tech also offer a comprehensive range of spare parts and accessories.

Products and services:
- marina service utility pedestals, custom designed, engineered and manufactured to suit individual requirements
- superyacht services, power and water distribution systems, and design and planning
- emergency service equipment and fire fighting system design and planning
- remote utility management systems
- sanitation pump-out and chemical emptying points, design and planning

Awards:
- GCCC Mayor’s Innovation Award 2014

- AIMEX Best Export Performance 2012/13
- AIMEX Best Export Performance Award 2013/14
- MIAA Silver Sponsor status 2016/17
Nautilus Marine Services

Nautilus Marine Services (NMS) benefits from over 20 years of experience garnered from extensive involvement in the marine industry. These benefits are passed onto their clients through knowledge and ability to maximise value in all work they do.

The vast range of our experience enables NMS to service virtually any aspect of the marine field.

Products and services:

- complete vessel management
- refit and maintenance
- project management
- regular scheduled cleaning and detailing
- sourcing and procurement of any and all equipment
- engineering and fabrication
- alloy and stainless repairs
- diesel servicing
- marine electrical and plumbing
- antifouling
- approved applicators and distributors for Seahawk Marine Paints

Accreditations:

- Chamber of Commerce and Industry Queensland member
- Seahawk Marine Paints applicator and distributor
Northrop & Johnson Australia

Northrop & Johnson, the authority on yachting since 1949, is a superyacht company offering a complete range of services for superyacht owners and charterers.

Northrop & Johnson Australia is a full service office providing clients with sales and acquisition of yachts, yacht management, yacht charter and crew services. With 16 offices worldwide, Northrop and Johnson can source yachts anywhere in the world for charter or sale, and coordinate seamless purchases and manage the shipping, transportation and importation of yachts into Australia.

Products and services:

- yacht sales
- new construction
- yacht charter
- yacht management
- crew services

Accreditations:

Oceanic Design & Survey

Oceanic Design & Survey (ODS) was established to provide specialised design, survey and consultancy services to the greater marine community. Their focus is to provide clientele with a professional and reliable service that delivers superior results.

ODS’s highly experienced team of naval architects and marine surveys have extensive knowledge in all areas of the design and survey of aluminium, steel and composite vessels ranging in lengths up to 60m. Their design portfolio covers a diverse range of vessels of both commercial and recreational style, which includes monohull and catamarans of both power and sail capabilities.

ODS holds AMSA accreditation in the areas of design and surveying for domestic commercial vessels and are readily available for local, interstate and international assignments.

Products and services:

- marine design and drafting
- diverse vessel design portfolio from plate boats to large ferries
- stability assessments
- all aspects of recreational and commercial marine surveying
- project management and consulting

Accreditations:

- AMSA Accredited domestic commercial vessels
Oceanic Marine

Oceanic Marine are committed to continuous research and development of new trailer and marine design. Their innovative design and fabrication techniques have made Oceanic Marine the leaders in quality boat, plus marine, general purpose and custom built trailers.

If you want a trailer built to your specific requirements with best-fit recommendations then Oceanic Marine are the experienced trailer manufacturer to get the job done.

Oceanic Marine are committed to offering the Australian market with a superior Australian made product at a competitive price. From small trailers to large trailers their focus is on quality.

Products and services:

• trailer repairs
• trailer manufacturing
• australian made
• custom built trailers
• accessories for trailers

P&W Marine Engineers

P&W Marine Engineers, established in 1978, is Australia’s largest manufacturer of underwater propulsion systems for both the pleasure and commercial sectors of the marine industry.

The company has a reputation for supplying quality marine products and the in house non-ferrous foundry produces customised castings in aluminium, bronze and gunmetal. P&W Engineers incorporates a modern engineering workshop equipped with CNC lathes and three axis machining centres, turning the raw castings into quality precision parts by qualified technicians and in addition welders with certified to Lloyds, DNV, and Bureau Veritas.

For over 30 years P&W Marine Engineers have worked alongside clients, selecting high performance propellers and exceeding expectations in both fuel economy and performance. Propeller modifications, scans and repairs are completed using a Hale MRI scanner, ensuring sophisticated propeller performance.

P&W Marine Engineers recognise the importance of providing on demand vessel service and product support. The company has expanded their services, providing complete project management of vessel repairs and continual development propels them to ensure customers feel confident every step of the way.

Products and services:

- propellers, repairs, maintenance
- marine engineering
- drive line systems
- marina services
- deck hardware, hatches and fittings

Awards:

- 2011 AIMEX Australian Marine Industry Export Awards: Best Marine Industry Export Performance- Highly Commended
- 2011 The Premier of Queensland Export Awards: Small Business - Finalist
- 2012 Manufacturing Skills Queensland: Small to Medium Employer of the Year – Finalist

Pacific Blue Cruisecat Pty Ltd

Pacific Blue Cruisecat builds first class Australian made products located in the marine precinct on the Gold Coast.

James Keay designed the vessel in 2003 and since then has been in production for both the charter and domestic arena. It has been built to allow for diversity, where you can design your Cruisecat with higher hulls and modify the design layout all to suit your needs.

Pacific Blue Cruisecat are boat builders catering for both the domestic and commercial market. Building vessels for the private sector i.e. Cruisecat or houseboat, as well as commercial surveys for bareboat charters, works boats and passenger ferries. They provide shipwright services to clients across Australia including consultancy services.

Pacific Blue Cruisecat can assist clients with boats and jet ski repairs and maintenance as well as painting services.

Products and services:

- shipwright services
- design and building Cruisecat
- design and building houseboats
- building vessels for bareboat charters, work boats or passenger ferries
- boat and jet ski repairs
- painting services
- repairs and maintenance
Pacific Paint & Fibreglass

Pacific Paint and Fibreglass offer both affordable prices and fast efficient service. They have a fully stocked mobile facility and a shop located at Coomera on the Gold Coast.

They are suppliers of Automotive, Marine & Industrial refinishing paints and materials and they pride themselves on customer service and satisfaction, and understand the importance of using state-of-the-art technology and quality products.

Pacific Paint and Fibreglass are a small family business with highly experienced and proficient staff with over 35 years experience in the motor vehicle, boat and jet ski industry and specialise in all aspects of these trades. They can provide you with technical support and personalised advice to assist you in day to day requirements. They also offer a professional colour matching service.

Whether you wish to purchase a small quantity for your project, or for large commercial applications they can cater to your requirements.

Their mission is to provide a high level of service that adds real value to your business through the supply of innovative products at an affordable price. As a family business they value your support and know they can deliver a positive outcome for your business.

Contact Pacific Paint and Fibreglass for all your paint and fibreglass needs.

Products and services:

- fibreglass composites, resins and catalyst
- primers, base coats, 2 pack solids, clear coats, quick dry industrial enamel, 2 pack enamel, polyurethane, urethane and epoxy coatings
- antifouling and epoxy coatings
- colour matching service
- gelcoats and flowcoats
- Thermo-Lite board
- full range of abrasives, safety wear, tools and consumables
Pacific Pontoon and Pier
Pacific Pontoon and Pier (PPP) is a wholly Australian-owned company whose head office is based in Burleigh Heads, on the Gold Coast.

PPP has grown through innovation, research and development, to be arguably one of the largest marina builders in Australia. They have developed a product range that has revolutionised marina construction, supplying a low maintenance, high density and aesthetically pleasing marina product.

30 years ago PPP could see the need to move away from old manufacturing practices that dominated the marina industry. PPP founder Bill Bourke set out to design a system that offered durability and was low-maintenance. This system has been further developed over the past 30 years, with improvements and details that can only come with experience.

PPP holds innovation patents in the improvement of the manufacture of pontoons and marinas.

The Gold Coast office includes a well-equipped design and engineering department, ensuring clients gain the full benefit of the company’s 30 years of experience. The company has acquired its own fleet of piling rigs and an impressive list of plant and equipment.

Products and services:
- marina, jetty and commercial pontoon construction
- marina design
- piling
- residential pontoons
- industrial fabrication

Accreditations:
- AS/NZ 4801
- ISO 9001
- ISO 14001

PR Floors/Propspeed Australia

PR Floors Pty Ltd is a family owned and operated wholesale flooring distributor established in Queensland since 1961. They are industry suppliers of many marine products such as indoor/outdoor marine floorcoverings both carpet and vinyl along with Ultralon Marine Flooring, Fenders and Boyancy foams which are constructed from closed-cell EVA foams. They supply a broad range of marine trades and manufacturers with their materials ready for installation.

Propspeed Australia trading as PR Floors Pty Ltd are the sole direct importer/distributor of the brand Propspeed for over 15 years since its market inception. PR Floors supply the product nationally via selected sub distributors backed by over 200 approved applicators/boat yards nationally whom apply the product professionally. The product is a foul release coating suitable for all under water metal substrates with a glass like finish creating a long fuel efficient service life in turn giving boat owners greater cost savings by reduced fouling between annual maintenance/slipping schedules. Some areas of use are propellers, shafts, struts, rudders, trim tabs, underwater lights, thrusters and or any underwater metal surface subject to marine fouling.

Products and services:

- Propspeed (foul release coating)
- Ultralon (flooring, fenders, boyancy foams)
- Expressions (marine carpets)
- Northstate (carpets)
- Podium Flooring (luxury vinyl plank and tile)
- Forbo Flooring (commercial vinyls)
- Roberts/Tredsafe (flooring accessories)
Rhino Linings

Rhino Linings Australasia is the Australian headquarters of Rhino Linings Corp.

Located on the Gold Coast, Rhino Linings has been setting the standards in spray applied protective linings and it has built a reputation as one of the world leaders.

Being a manufacturer of specialised application equipment and proven lining systems that include polyurea, polyurethane, polyaspartic and epoxy, Rhino Linings is in a unique position to offer superior spray applied protective solutions for any size project.

Rhino Linings’ protective, flexible surface coatings are resistant to chemical attack from petroleum products and salts and are suitable for decks, superstructure, ballast tanks and anchor or chain wells.

With fast cure times to minimise downtime, Rhino spray applied coatings allow for quicker application and less disruption for your operation.

The company have independently owned and operated approved Rhino Linings applicators within Australia and the Australasian region and are all highly supported by Rhino Head Office’s engineers and technicians, with 24/7 technical assistance and advice ensuring your project is their number one priority.

Products and services:
- Australian manufacturer
- spray applied protective coatings
- polyurea
- polyurethane
- epoxy
- polyaspartic

Accreditations:

RIB Force Inflatables

RIB Force Inflatables offers the largest range of inflatable boats in Australia for both leisure and commercial use. They offer only the best selection of internationally recognised brands, including AB Inflatables, Aurora Inflatables and Mercury Inflatables – all powered by Mercury outboards.

RIB Force Inflatables also offer specialised services for the repair, service and maintenance of inflatable boats which includes retunes, refurbishments and other services.

RIB Force Inflatables are an authorised Mercury Service Centre with a dedicated workshop with authorised Mercury service mechanics and personnel. The workshop has a full inventory of spares and equipment to look after servicing of all makes and models of outboard engines.

The facility is located with a boat ramp to facilitate water testing and enables clients to bring their boats for service, repair and maintenance by water.

RIB Force Inflatables are an industry leader with a 25 year history in the manufacture, development, sale and service of inflatable boats, RIBs and motors for both commercial and recreational purposes.

Products and services:

• rigid inflatable boats (RIBS)
• inflatable boats
• mercury outboard motors
• motor servicing and maintenance
• boat and marine accessories
• davit services
• repower and retubing
• water sports products and accessories
• boating lifestyle products and accessories
Riviera Australia

Riviera Australia is a world-class builder of luxury motor yachts.

The brand is synonymous with premium luxury, easy-to-use technology, superior sea-keeping ability, high-performance and outstanding owner support.

With a 36-year heritage of building luxury motor yachts on the Gold Coast, over 5200 Riviera yachts have been launched that now cruise the great lakes, rivers, seas and oceans of the world.

Riviera owns and operates the largest boat-building facility of its type in the Southern Hemisphere and has a dedicated management team of 480 talented professionals, each of whom has long-term boating industry experience, including international designers, engineers, boat-builders, master craftsmen, administration, finance, sales, dealer support and marketing specialists.

With 55 per cent of annual production exported (in 2015) Riviera continually searches the world to find the latest innovative and ease-of-use technology and componentry that further enhance the pleasure of owning a Riviera luxury motor yacht.

Products and services:

- Riviera currently offers 17 world-class luxury motor yacht designs from 36 to 77 feet, across five distinctive model collections:
  - Open and Enclosed Flybridge
  - Sports Motor Yacht
  - Sport Yacht
  - SUV
  - Belize Motor Yachts

Awards:

- 2015 and 2016 Australian Marine Industry Exporter of the Year
- 2016 Australian Marine Industry Best Export Marketing Strategy
- 2015 Australian Marine Industry Large Exporter of the Year

- American Boating and Yacht Council (ABYC)
- Det Norske Veritas and Germanischer Lloyd (DNV GL) classification
Sea Transport Solutions

Sea Transport Solutions Pty Ltd (STS) offers specialist marine design and consulting services and has extensive experience working with commercial, military and pleasure vessels.

STS is part of the Sea Transport Corporation group of companies, which own, operate and construct commercial vessels. They pride themselves as designers with real experience, as their staff have a diverse range of skills and a unique understanding of technical, commercial and operational aspects of ship design, construction and operation.

STS provide design services from concept design, hull optimisation and tank testing through to advanced structural design, Classification approval and production (CNC) detail.

Operating since 1976, STS has a proven record of successful, innovative designs currently operating in 47 countries worldwide.

Products and services:
- naval architects, consultants, surveyors and project managers
- newbuild, refit and repair
- conceptual feasibility, pre-feasibility and bankable feasibility studies
- construction and on-site management
- operation management
- vessel delivery
- harbour/ramp layouts
- logistics
Seatech Marine

Privately owned Seatech Marine has been in operation for over 27 years. During this time Seatech Marine has grown to become one of the Gold Coast’s largest marine engine service, repower and repair companies with the biggest team of qualified and certified technicians.

The company operates from a world class facility in secure, modern, spacious, under-cover, fully equipped workshop and mobile vans and is based at the world class Boat Works marina. Their technicians undergo regular skill based training to keep current with new electronic engine systems and products. Seatech Marine offers on-water, in-workshop, pick-up, drop-off and mobile mechanical services across the Gold Coast.

Seatech Marine is an authorised dealer for Volvo Penta, Caterpillar and Cummins Mercruiser engines and Onan and Kohler Generators. All work carried out comes with full dealer warranties on parts and labour.

Products and services:
- marine engine repowers (petrol and diesel) – Volvo, Caterpillar and Mercruiser
- marine engine servicing and repairs – all brands
- generator replacement, servicing and repairs – Kohler, Onan and Caterpillar dealer
- marine diesel engine repairs and maintenance – Volvo, Caterpillar and Cummins dealer
- marine outboard motor service and repairs – all brands

Accreditations:
- Certified Club Marine Repairer
Southern Stainless Pty Ltd

Southern Stainless are a world-class Australian, metal fabrication company.

Privately owned and established in 1982 Southern Stainless operate from a 3000mt/2 facility on the Gold Coast and have a full time team of 30 talented project managers, designers, fabricators and metal polishers. They research and develop their own products in-house and are capable of bringing gas and electric barbecues from concept to fully certified appliances.

The Southern Stainless range of Cookout Barbecues and marine accessories have been manufactured to endure the harsh marine environment. All their stainless is certified to world wide manufacturing standards. Cookout Barbecues are manufactured with 1.2 and 1.5mm thick 316 grade stainless steel lid, body and burners and the 3mm thick 2205 duplex grade stainless steel plate sets Southern Stainless apart from their competitors. 2205 duplex is superior to any other cooking grade of stainless as it is the most rust resistant stainless for cooking. Their barbecues are stylish in design, have a fully welded construction and are available in gas, electric and charcoal.

Southern Stainless are also able to custom build electric stainless steel barbecues for the yacht and super yacht industry. Their electric teppanyaki (flat plate) style barbecues operate on 240V power and vary in output to suit 10amp, 15amp or 3 phase power. Southern Stainless have also built barbecues to run on 110V as well as 144 Volts DC. They manufacture their custom barbecues as either one off or small production runs.

Products and services:

- cookout barbecues
- stainless marine accessories
  - bait boards
  - stern rails
  - bow rails
  - grab rails
  - fuel and water tanks (aluminium & stainless)
- gas firepits
- commercial projects
  - architectural balustrades
  - sheetmetal fabrication
  - aluminium fabrication
Stella Systems

Stella Systems is a manufacturer of marine desalination products as well as a manufacturers representative specialising in marine toilet systems, wind generation, bow and stern thrusters in addition to a vast range of complementary marine products.

Stella Systems is part of the Stella Marine group of companies that also offer complete engineering services for vessels up to 180 feet.

Products and services:

- bow and stern thrusters
- watermakers/desalination
- power generation
- full engineering service
- TRAC stabilisation
- class approved welding
- engine descalers
- marine toilet systems
- marine air conditioning
Superior Group’s manufacturing facility
Superior Group

The Superior Group develops, designs, manufactures and installs a variety of flotation solutions for commercial, domestic, private and government marine berthing needs and industrial flotation requirements, both within Australia and internationally.

The company can provide complete turnkey solutions for all types and sizes of flotation from concept, design to manufacturing and installation, anywhere in the world.

Established international partners and affiliates support Superior’s international operations with in-country expertise. Multiple manufacturing capabilities include rotomoulded polyethylene flotation and components in aluminium, steel and concrete.

Products and services:

• manufacture and installation of commercial marinas and residential pontoons
• floating pump pontoons and work platforms
• access gangways and accessories (floating and fixed) for all flotation types
• rotomoulded pipe floats
• modular marina pontoons

Accreditations:

• class approved welding
Sweep Marine Services

Sweep Marine Services is a rapidly growing Queensland based company offering cleaning and refinishing services for marine vessel tanks, bilges, voids and engine rooms, and also offer diesel cleaning and storage.

Their Alfa Laval Centrifugal Separator has a capacity of 1000 litres per hour with a guarantee of particle removal from 5 to 0.5 microns, separating water from fuel down to its molecular level.

Sweep Marine Services diesel storage facility is able to hold 12,000 litres and they also offer disposal services for black and grey water, sullage, engine oil, hydraulic oil, batteries and used filters.

**Products and services:**
- bilge, voids, tank, engine room cleaning
- bilge, voids, tank, engine room refinishing
- diesel cleaning
- diesel storage
- waste disposal services
TAFE Queensland Gold Coast

Located in the heart of the Marine industry at Coomera, their specialised training facility is based on-site with the Gold Coast’s largest boat building employer, Riviera. The facility boasts two levels of industry style workshops and specialised learning spaces to offer students the best of both worlds in practical and theory based training experiences.

Within the courses students have exposure to state of the art training and techniques within the Gold Coast Marine Precinct. International students from all over the world attend TAFE Queensland Gold Coast looking for the latest training available for this industry.

As a graduate of a TAFE Queensland Gold Coast marine course, students will have developed the skills to work safely in and around recreational vessels, and learn setting up and repair procedures of small vessels including fibreglass repair.

Products and services:

- AUR20612 – Certificate II in Marine Mechanical Technology
- MEM20413 – Certificate II in Engineering Pathways
- AUR30514 – Certificate III in Marine Mechanical Technology
- MEM30705 – Certificate III in Marine Craft Construction
Telwater

Telwater is the largest manufacturer of aluminium boat and trailer packages in the Southern Hemisphere.

Australian owned and operated, Telwater produces up to 30 boats per day and in excess of 12,000 boats and 6000 trailers annually.

Telwater specialises in the design and manufacture of leading aluminium boat brands Quintrex, Stacer and Savage as well as Yellowfin plate boats, Savage fibreglass boats and Vortex engines.

Producing hundreds of boat models ranging in size between 2–7 metres, Telwater are continually setting industry standards with innovative designs, advanced technology and constant research and development programs.

Telwater’s state-of-the-art manufacturing facility is situated on a 10 acre site and includes a small boat, large boat and packaging factory with staff members specialising in a number of trades including expert welders and painters, research and development technicians and many other various trades, all with the highest quality of workmanship and dedication to the brands.

The company’s success and reputation in Australia has allowed for expansion into the international market, exporting to over 22 countries covering the South Pacific, Asia, Europe and the United States.

Products and services:
- Quintrex boats
- Stacer boats
- Savage boats
- Yellowfin plate boats
- Telwater trailers
- distribution of Evinrude outboard engines

Accreditations:
- RTO: 0083
- CRICOS Provider Code: 03037G
Turtle-Pac Pty Ltd

Turtle Pac are manufacturers of collapsible tanks from 50 litres to 20,000 litres to hold water, fuels, chemicals, of standard and custom design.

Turtle Pac produce salvage lift bags to 5,000kg, parachute and enclosed design, the world’s only yacht flotation system. They also produce inflatable marker buoys in day and night models and the world’s only ‘collision bandage’ inflatable damage containment device.

Products and services:

- Super deck tanks
- underwater lift bag sand yacht floatation
- collapsible water bladder tanks
- fuel bladder marine pillowtanks
- inflatable regatta mark buoys
- collision bandage
- yacht tanks
